If you are in the market for new/second hand equipment please ask any of the club members for advice. They can usually save you money on your purchases; either outright or just by advising which equipment to buy to suit your requirements / budget..

REMEMBER: This is your Club, if you have skills that can be put to good use let the Committee know. It will be to your benefit as a Club member by saving the Club's Finances (less money paid out for Professional Services = more money that can be spent on Member's Facilities).
